

The range of flat work ironers from 14" and 20" is the perfect option for those small and medium sized laundries which need an optimum ironing quality with minimum operation and maintenance cost.

The ironing output (between 10 and 40 kg/hour depending on the model) and their heating types (Electric, Gas and Steam) makes them flexible to adapt to the different customer needs.

MP SERIES
Flat Work Ironers

PS-35/140 MP PS-35/160 MP PS-35/200 MP PS-50/200 MP PS-50/260 MP PS-50/330 MP

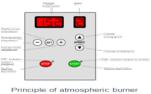

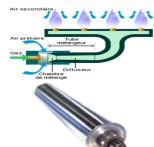

Designed to meet the requirements of hotels, healthcare institutions, nursing homes and on-premises laundries and to unsure flexibility, heightened production and quality.

Touch control key pad with seven preset speeds for a gentle speed cycle selection deliver high standard results for a wide variety of fabrics and moisture retentions. It provides a soft start and accurate speed.

All models feature high energy burner and AC frequency speed drive with two heat sources Gas and Electric. Simple design that provides uniform heat across the entire cylinder.

The cylinder is manufactured with a high standard chrome finished to eliminate the process of messy wax and stripping; to increase laundry production .

FAGOR

Standard Features:

Feed and return.

Frequency Inverter for the ironing speed control

Safety protector for hands

Automatic cool-down stop (80 °C)

Panels in Stainless Steel and painted steel

Powerful exhaust system

Nomex feeding and ironing belts for an easy Operation, top ironing

Quality and long-lasting belts

Electronic microprocessor (speed and temperature control)

7 speeds controlled by AC frequency control: 1 - 6.5 m/min.

Electric and gas heating

Optional Features:

Smart system, moisture control. Chromed cylinder, better performance and longer life.

Reverse roll rotation.
