

TP SERIES 100-G Commercial Washer-Extractor FWS-25 TP FWS-30 TP FWS-40 TP FWS-60 TP FWS-80 TP FWS-135 TP

This new generation of washers combines the latest technology with the best quality in components and materials. They are equipped with the most advanced technology in water and energy saving systems, as well as the WET CLEANING feature. Its user friendly and intuitive programming makes them suitable for all types of laundries, dry- cleaners, self-service, commercial or industrial laundries, hospitals and nursery homes.

The latest features and technology at you service:

Powerful Flexible "Control your budget"

The laundry operator can easily program, retrieve data and create wash cycle reports through USB and laptop PC. A simple access to data bank and easy programming the TP control helps save time and ensures the correct laundry process. Trouble shooting friendly.

Built to Last Ergonomic Door System

Loading and unloading are fast and easy through the oversized ergonomic door system that opens 180 degrees. No more wasted time due to door lock error codes. Fagor maintained your laundry business

running at a full productivity.

User friendly chemical dispensing

The four compartment dispenser ensures a consistent cleaning process in every wash, which it eliminate the possibility of overuse, that can result in damage fabric due to operator error.

Quality Construction and Durability A-Frame

Rugged A-Frame Design offers excellent strength and stability for better performance. Washer feature inner, outer cylinder, front and side panels of durable stainless steel. Oversize bearings and housing assure superior quality & longevity over the life time of the washer.

Low Speed Industrial-Commercial Strength Washer-Extractor, a Fagor Commercial product line, engineered to deliver energy efficiency, performance and to manage unmatched wash quality performance. The robust design will last for years and the performance has proven to be extremely reliable in the industry.

What makes Fagor a true commercial product and energy efficient?

Standard Features:

Heavy duty frame Stainless steel panels Hinged control panel Flexible water level setting 5 compartment supply dispenser 8 external liquid supply dispenser Water reuse capable Enclosed heavy duty drive motor Large door opening Third inlet valve Wet cleaning capable Traceability – storage of data.

Optional Features:

Double drain kit allow the recovery of the water, with important savings.

Drain-pump kit (25lbs and 30lbs).

Double heating electric-steam kit.

6 extra signals for automatic liquid dosing.

Industrial voltage: $440 \div 480$ III without neutral - 50 / 60 Hz.
